

Steps to Create a Red Hat Account

Description :

A Red Hat account gives you access to product evaluations and purchasing capabilities.

In This example we have used a temporary email ID for testing.

Stage One – Provide Information

Enter the below link in a new web browser window

https://www.redhat.com/wapps/ugc/register.html?_flowId=register-flow&_flowExecutionKey=e1s1

← The RHN Account Creation Welcome page

Create a Red Hat Login

A Red Hat account gives you access to product evaluations and purchasing capabilities.

* Indicates Required Field

*** Account Type**

- Corporate** A corporate Red Hat account allows a set of users to centrally purchase or administer systems within a corporate organization (system administrators, purchasing agents, IT management, etc.)
- Personal** A personal Red Hat account is for purchasing or administering your own personal systems.

← ****Always Choose "CORPORATE" ACCOUNT When using your official email ID****

Need access to an account? If your company has an existing Red Hat account, your organization administrator can [grant you access](#). If you have questions, [contact customer service](#).

* Indicates Required Field

Login Information*** Create a Red Hat**

Login:

← Login Information
Login Name

Your login is a user ID for accessing your account across all Red Hat sites. It must be at least five characters and cannot be changed once created.

← Enter your preferred email ID

* Email Address:

* Password: ██████████ Strong

← Strong password

Your password must be at least six characters long. A strong password combines lower case letters, upper case letters, numbers, and symbols.

* Confirm Password:

Company Information

* Company:

← Provide Company Name and Title

* Title:

Contact Information

* First name:

* Last name:

* Country:

* Address line 1:

Address line 2:

Address line 3:

* Postal code:

City:

State:

* Phone number:

Fax number:

The Contact Information has to be filled up to have a complete privileged RHN Account.

Red Hat Login Email Verification Inbox x

 **no-reply@redhat.com**
to me ▾

Dear Red Hat User,

This email is sent to validate the email address that you have provided for your Red Hat login. Your Red Hat login, in combination with an active Red Hat subscription, provides you with access to systems management capabilities through Red Hat Network.

To ensure the security of the account information associated with your Red Hat login, please take a moment to click through the link below and verify that we have the correct email address. If you do not confirm your email address, your Red Hat login will eventually be disabled.

To confirm your email address, please visit the following URL:

<https://www.redhat.com/wapps/ugc/confirm.html?key=crGOKrJVkUpR6wgf>

Thank you for using Red Hat.

Account Information:

Your login: RHN_APAC_Test
Your email address: test.rhn2018@gmail.com

This email is sent to validate the email address that you have provided for your Red Hat login.

To confirm your email address, please visit the URL:

Your RHN ID

Email Confirmation

The screenshot shows the Red Hat Customer Portal navigation menu. The top navigation bar includes links for SUBSCRIPTIONS, DOWNLOADS, CONTAINERS, and SUPPORT CASES. The main navigation menu is divided into several sections: Infrastructure and Management, Cloud Computing, Storage, JBoss Development and Management, JBoss Integration and Automation, and Mobile. The 'Products & Services' section is highlighted, showing a list of products including Red Hat Enterprise Linux, Red Hat Virtualization, Red Hat Identity Management, Red Hat Directory Server, Red Hat Certificate System, Red Hat Satellite, Red Hat Subscription Management, Red Hat Update Infrastructure, Red Hat Insights, Red Hat Ansible Tower, and Red Hat Ansible Engine. The 'Support' section includes Production Support, Development Support, Product Life Cycle & Update Policies, and Consulting. The 'Services' section includes Technical Account Management and Training & Certifications. The 'Documentation' section includes Red Hat Enterprise Linux, Red Hat JBoss Enterprise Application Platform, Red Hat OpenStack Platform, and Red Hat OpenShift Container Platform. The 'Ecosystem' section includes Browse Certified Solutions and Partner Resources. A featured section for 'Enterprise-ready containers' is also visible, highlighting secure, certified, and up-to-date container images and providing a link to search the Red Hat Container Catalog.
